

Girl Scout Badges and Journeys

Juniors

Begin earning your badge and journey patches at Fort Ticonderoga with these recommended ideas!

Badges

Crane Design Challenge

What's the best way to move a heavy cannon off its carriage? The answer can be uncovered first hand at Fort Ticonderoga! See how our artillery engine differs from the cranes you have studied. Try lifting a cannon barrel using pulleys and rope in our interactive exhibit! Put your experience to work to create your own crane.

Playing the Past

Explore everyday life for people living at Fort Ticonderoga throughout its occupation! By talking to our staff, you can learn what soldiers experienced or what women and children were doing at the fort. Be sure to visit the tailors and shoemakers to see how clothing and shoes were made and worn. Gather your ideas and see how to live history!

Simple Meals

Visit our camp kitchen to see what's cooking for a soldier's dinner! Uncover what ingredients were used and how meals were prepared. Talk to our staff to learn how ingredients came to Fort Ticonderoga and gather ideas on what you can make at home! You can visit our online At Home Activities page on our website for more information!

Gardener

See how gardens are designed and planted by visiting the King's Garden. While visiting the garden, you can see how garden designs have changed from the 18th century to the modern day. Talk to our gardeners on staff to see what techniques they use to create these gardens and gather inspiration for your own!

Journeys

Think Like an Engineer

Watch a cannon demonstration, see how our oxen pull heavy loads, examine the architecture of Fort Ticonderoga, or learn how bateaux travel on the water, to better understand the engineering they ideas involve. Talk to our staff to learn more about what engineering techniques were used in the everyday life of a soldier and see how you can create your own design ideas!
